THE NATIONAL ANTHEM

Arise, O compatriots, Nigeria's call obey
To serve our fatherland
With love and strength and faith
The labor of our heroes past
Shall never be in vain
To serve with heart and might
One nation bound in freedom, peace, and unity.

Oh God of creation, direct our noble cause
Guide our leaders right
Help our youth and truth to know
In love and honesty to grow
And living just and true
Great lofty heights attain
To build a nation where peace and justice shall reign.

DIRECTOR'S MESSAGE

Bismillahi Rahmanir Raheem.

I would like to begin by addressing your first teachers. No, I don't mean your nursery or reception teachers. Your first teachers were your parents and carers.

Parents, for the past few years, you have practiced phonics, checked homework and raced against the clock to be here and there on time with your child. Your positive attitude towards learning has influenced and encouraged your child to achieve his or her best at Daltha Academy.

If this is your first child who is going to secondary school, you will find that there are additional expectations of both of you. Your son or daughter is no longer going to be referred as pupil but as a student.

For the transiting and graduating class of 2019, it has been a journey that started with tentative steps perhaps, but one has taken us to remarkable heights. We have encountered some trials along the way, soldiered on and come out the stronger for them.

We have experienced exceptional moments and created memories that will be fondly remembered in the years ahead. Six years of elementary school have whizzed by and now it's time for you to fly the nest of your primary school off into the secondary school.

As we look back over the last few years, certainly there was a beginning, and alhamdulillah there was also progress and yes- undeniably we have been successful!

I wish you everything that you so richly deserve in the years ahead-it has been an honor and a privilege watching your progress and success!

GRADUAND

Daltha Academy has been a very effective part of my life, I started schooling here at age 6, then I was in grade 2. Upon gaining admission into the school, I thought it would be a hard decision for me to make friends, but to my surprise, I made three new friends in less than 6 hours. We got pretty attached to each other. I have had great moments in the school, but perhaps the best moment took place when I earned the badge for an academic star in my class, it was a shocking experience for me as I thought I was not the best in my class.

Have I mentioned my project days? Being a muadhin for about a month, calling the adhan for fajr and isha at Amuwo Odofin Muslim Community Central Mosque, researching on the books of Allah and mastering the seven habits of happy kids by Sean Covey was a very challenging and yet doable one.

With thorough training and committed Coaches, I have developed some swimming and life saving skills, won medals in chess competition and earned my blue belt in Taekwondo.

I look forward to joining the large team in International School of University of Lagos (ISL) by September to continue to develop my skills.

GRADUAND

I came into Daltha Academy during the 2017/18 summer drill hoping to leave after the summer drill, but to my surprise I ended up spending a whole session in the school. My stay at the school was homely as I have my childhood friends here.

My remarkable moment at Daltha academy was when I was opportune to be part of pupils on a visit to the bakery. My first Adhan at Zumuratul Islamiyyah Central Mosque was quite an impressive one, I also made a research on the ashratul mubashareen. I thought I won't be able to execute and defend those projects, Alhamdulillah I did it.

Daltha academy is well accommodating as there is no single bully amongst us, I wish the school had a secondary school so that I don't leave but my training here has earned me an admission into the prestigious International School, Ibadan (ISI).

It's a mixed feeling leaving the school as I will miss my friends and teachers.

GRADUAND

I never knew there was a school like Daltha academy in Amuwo-Odofin where Islam, academics, morals and sound education are bestowed on pupils. Being close to the festival mall makes me find the school easily accessible. Activities such as swimming, taekwondo, chess and scrabble are part of what got me attracted to the school.

One achievement I will never forget is calling the adhan at Oba bi olohun Osi Central Mosque in Festac, carrying out a research on The Angels of Allah was also an unforgettable experience.

One of my enjoyable moment at the school was during my project defence, the panel of judges were so lenient that I was able to answer all my questions well. I believe I am set to face the challenges of secondary and defend what I believe in.
